A post office has been established on the east bank of the Allegheny, opposite Parker's Landing, named Pollock.

BUSINESS CHANGE.—Messrs. J. & M. Barrett, of Dunkirk, formerly proprietors of the establishment now owned by Owen Gaffney, have purchased Michael Mooney's liquor store, and take possession at once. The Messrs. Barrett are at present proprietors of a wholesale liquor house in Dunkirk, and bring with them a thorough knowledge of the business. It will be their aim to keep on hand the best of liquors, at prices as cheap as the cheapest.

The Venango County Teachers' Institute will meet at Venango City, to-day at 10 o'clock P. M. and will continue in session five days.

The Hon. G. P. Wickersham, State Superintendent of Common Schools, will address the Institute and citizens this evening. The exercises for each evening will be an address or lecture. Select reading by Miss Stetson, of Philadelphia and others, essays, &c. The public are respectfully invited to attend.

Oiled furniture that has been scratched or marred may be restored to its original beauty simply by rubbing boiled linseed oil, used by painters, on the surface with a wad of woolen rags. Varnished furniture dulled may be similarly restored by the use of a varnish composition of shellac dissolved in alcohol, applied in a similar manner. Common beeswax rubbed over furniture and heated by the friction of a woolen wad briskly used is also an excellent furniture polish.

REMOVAL OF THE EXPRESS OFFICE.—The A. M. U. Express office of this place is being removed from its old quarters in Washington street to the new building opposite the depot, to-day. The new quarters are conveniently arranged for the business, and Mr. Morgan, local agent for the Company, who is always at his post, and ever ready to accommodate the public, will be pleased to see his friends and the public who may have business with the Company. The old office is to be fitted up for a drug-store, by Griffies Brothers, of this place.

NEW FIRM.—Business changes in our commercial circle are always noteworthy. H. C. Wachter, who has for several years conducted the business of a grocer, in Petroleum Centre, in a very successful manner, has taken a partner in the business in the person of John J. Felter, who has been a clerk in the store for several years. Johnny's affable manners and generous disposition has won for him many friends in old and new acquaintances, and his acquisition to a membership in the firm with which he has been so long connected, will be received with satisfaction by his friends and the business public. The new firm of Wachter & Felter has our best wishes for its success.

FOUR YEARS THE HUSBAND OF TWO WIVES UNKNOWN TO EITHER.—A suit for \$5,000 a year alimony and the custody of a child, the survivor of three, has been begun in St. Louis by Lucy Hall against Benjamin L. Sanderson of that city. It is claimed that the couple were married in Terre Haute, July 15, 1865, but that the defendant had previously been married to another woman without her knowledge; nor did she learn the fact until she had borne him three children. Mr. Sanford is the nephew of the late Pierre Thouteau, Jr., is very wealthy, and is the husband of a daughter of one of the first families of St. Louis. His wife will seek a divorce.

FIRE AT SHERMAN, N. Y.—The quiet but flourishing little town of Sherman, situated on the Cross-Cut railroad, was visited by a most devastating fire on Friday afternoon last, whereby all the business portion of the town on the north side of Main Street was burned to the ground. The loss cannot be far from \$30,000, with but comparative little insurance. The fire originated from a defective flue in the hotel. It will thus be seen how much might have been saved by a few shillings expense, or perhaps a little attention even might have prevented this calamity. As the season of cold weather approaches, we can but admonish our own citizens of the great necessity of such attention, particularly here, where there are so many tin chimneys and otherwise imperfect flues.

Four new attachments were issued yesterday against the Fisk Opera House, three as the suit of Orlando W. Joslyn and one as the suit of Watson B. Farr. The former were for \$352,350 and the latter for \$272,539, which with the former attachments completely ties up Mr. Fisk's interest in the establishment. On motion to vacate the previous attachments against the Opera House at the suit of Joslyn, Judge Brady has decided that legally Fisk is a resident of Boston and that the attachments were properly issued and must stand.

A portion of Brigham Young's army, comprising cavalry, infantry, and artillery, have been in camp near Salt Lake City, and made a fine appearance. The Desert News says: "The order, sobriety, good feeling, and innocent mirth that reigned everywhere through the encampment may possibly be equalled, but never excelled, outside of Utah. The troops, from the youngest drummer-boy to the commanding general, manifested that they belonged to a race whom a high religious feeling and devotion to truth and liberty enabled at all times and in all circumstances to maintain their dignity and act as gentlemen."

LIVELY OLD GAL.—The Warren county correspondent of the Erie Dispatch relates that at the house of an eloquent Methodist divine, he recently saw an old lady of eighty-four suddenly jump up and dance a hoedown for the space of five minutes, to the music of a violin and organ which were being played by members of the family. Give her the champion's belt.

It is estimated that there are now in the Parker's Landing oil district thirty-five to forty producing wells, the yield of which ranges from three to fifty barrels daily. The average daily yield of the district of last month, as shown by the shipments and stocks, was about 439 barrels. During October two wells were struck that produced twenty-five barrels each, one that produced four barrels, and one that yields forty-five to fifty barrels. As there has been no decrease of importance, the total yield of the district must now be at least 539 barrels per day the week through. Only a few of the wells are pumped on Sundays, and the above average being for every day in the week, it is necessarily one-seventh less the average during the days that the wells are worked.

The Boston Post says: "Samuel Hecht was found dead in his bed in New York, his cold hand clenching a Saturday's Tribune containing an essay on political economy. It had killed him."

At about midnight of Friday Nov. 5, the noted sporting house of Harry Hill, 26 East Hudson st., became the scene of what may yet prove to be a fatal stabbing affray, in which the noted proprietor received serious wounds at the hands of one of the fallen creatures who frequent his place. The origin of the affray was a disturbance which was created in the house a few evenings ago by one Nelly Smith.

The New York Sun learns from Washington that Secretary Boutwell is making arrangements to bring out a new loan at 4 per cent. interest, and that it will be officially announced at an early day. MASQUERADE BALL.—On Tuesday evening next a Grand Masquerade Ball will be held in Sobel's Opera House. The Committee desire to state that the arrangements are completed for a grand party, and that the costumes are already secured and will be distributed on the day previous and on the day of the ball, at the Opera House. Spectator tickets are to be issued at \$1.00 each, which will be sold to citizens who do not desire to join the dance. The dancing tickets will be \$2.00. This custom of issuing spectator tickets is a common one at masquerades, and as all the dancers will be masked during the entire evening it is to be supposed no one will be identified.

"Mamma," said a precious French miss of fourteen, "you never let me play the charades, but I know how to make them too. My second is what every woman tries to conceal. My whole is the beginning of liberty. Can you guess it?" "No." "But, mamma, it is very simple. It is *marriage*." The reader will please observe that *mari* is the French for husband.

A non-explosive lamp, filled with non-explosive oil, and capped with a patent non-explosive burner, exploded in Cleveland, Ohio, on Friday night. A gentleman in the room suddenly noticed that "the lamp seemed to enlarge. He drew back a step or two, when the lamp exploded, sending a hundred pieces of glass flying through the room." It was standing on a bureau at the time, and was properly trimmed, and in good order; yet with all these "non-explosives" it did explode.

The President will probably send in his message to each house in writing. The object of this is to prevent its premature publication. The Secretary of the Treasury is also contemplating the same thing.
